## $1242 / 1642$ 5PEED BLADE

THE NEXT LEVEL OF JOBSITE PRODUCTIVITY

## 1242 / 1642 srea bume

Precision site leveling, 12' (1242) and 16' (1642) working width for efficient jobsite performance

The Landoll new ICON 1242 / 1642 Speed Blade will increase the efficiency of your entire operation. The speed blade's 16 -foot working width on model 1642 , levels the site
 and haul roads with ease reducing wear and tear on the equipment and driver fatigue. Increased productivity is attained through faster haul speeds to and from the site. Best of all, with a transport width of $10^{\prime}$ $6 "$ the entire process is one-man operation.

- Increase jobsite productivity with faster haul speeds
- Reduce wear and tear on equipment
- Minimize driver fatigue
- Precision site leveling
- Seal jobsite prior to rain, for faster return
- Ability to utilize one power unit for maintaining haul roads
- Easy, one man operation for preparing unit for transport (narrow 10'- 6" width)
- 16' working width on Model 1642 for efficient jobsite performance
